1.3 Symbols / Speak

Within this document words are used as a symbol for a thought, a concept, an idea. Due to the limitations of our language, some symbols have multiple meanings, with visual and perhaps "negative" emotional anchors. An example is the word "God" - For some it is the divine, for others it is an old man on a throne who throws people into hell. There are also concepts which the Egi - the chatter box within - also called the Ego or innervoice which is constantly on air -will not like. Depending on your cultural background, your religious upbringing, your education or experience, these concepts might cause the Egi to provoke a strong negative reaction within you. Please remember this whilst reading, to look past the symbol for the contextual meaning, to read the document from a neutral point of view without judgement, with equanimity. Follow your intuition or gut feelings.
