1 Introduction

1.1 The Initiative

atlantis° is about upgrading humanity to a new conscious awareness. Of the reality we breath in, of the culture we live, in how we create. Of wrapping the earth in a collective consciousness. It is an initiative to empower humanity, to support its development and enable a different type of growth on this planet.

1.2 This brochure

1.2.1 WHAT IT CONTAINS

This brochure is a short overview of the core things - which we call scopes - around which **atlantis°** is being built.

1.2.2 THE WHY

Bundling them together in a separate document allows them to be shared, discussed, referenced and be tracked.

1.2.3 STATUS

These scopes are in a state of development.

1.2.4 STYLE AND WHO IT IS FOR

The style used in this brochure is more of a technical, project language type. It is for everybody who has interest in the atlantean fundamentals.

1.2.5 CHANGES

1.3 Symbols / Speak

Within this document words are used as a symbol for a thought, a concept, an idea. Due to the limitations of our language, some symbols have multiple meanings, with visual and perhaps "negative" emotional anchors. An example is the word "God" - For some it is the divine, for others it is an old man on a throne who throws people into hell. There are also concepts which the Egi - the chatter box within - also called the Ego or innervoice which is constantly on air -will not like. Depending on your cultural background, your religious upbringing, your education or experience, these concepts might cause the Egi to provoke a strong negative reaction within you. Please remember this whilst reading, to look past the symbol for the contextual meaning, to read the document from a neutral point of view without judgement, with equanimity. Follow your intuition or gut feelings.

2 General

2.1 Thingies

The things described in this document can be classed as ideas, concepts, views. Depending on your awareness the value of the things change. Just like a glass, when seen for the first time from above is a circle, and then with changing viewpoint, light and understanding, changes into a glass as we know it, some of the things described in this document also change in their understanding and value with increasing experience and knowledge.

Some things experienced in our universe are unexplainable. An example is what happens in a *syscoe* or family constellation. For somebody who has never actively taken part, seeing one for the first time goes against their understanding of the world: The Ego can suggest that the people are acting some kind of secret play. As soon as the person "experiences" one themselves, they get a shift in their understanding and awareness. People who take part in hundreds get a glimpse of the divine's orchestration behind them.

2.2 Naming

This things described here are generally classed as "scopes" as the concepts which will be built on top of these "thingies" are being defined within the "scope" of that thingy.

2.3 Awareness

The included scopes are emerging out of a set of awareness'es of the world. For more information see the separate *Awareness* document (A reference to it can be found under the "Other documents" section.)

2.4 Presentation

Within *atlantis*° many of the objects, the scopes, are interconnected with each other. They can be organised in a hierarchical structure, flat structure as well as a multi-dimensional cellular structure, depending on the viewpoint. To represent this multi-dimensional connectivity and cell structure we use shapes, such as hexagons and the *flower of life* symbol.

2.5 Terms

For new things we need new words.

2.5.1 A NEW WORD - FLOVE

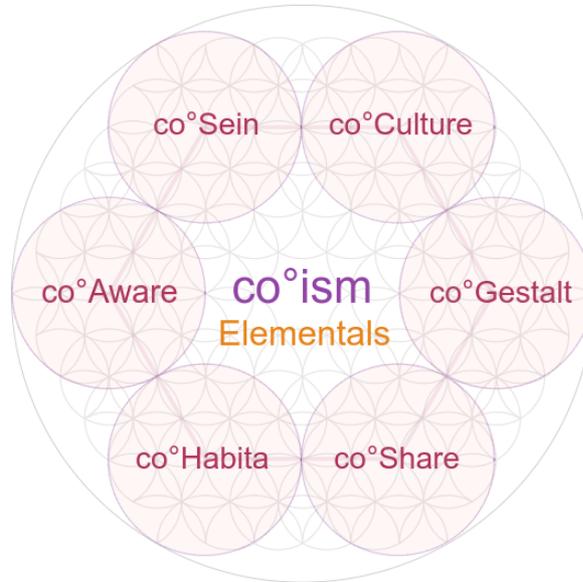

The word *flove* - from the words flow/flux and love - is a generic symbol being used as a definition for the energy which is flowing when love or good feelings are being felt, when financial tokens or money are being transferred to create value, for the feeling of abundance, of goodness.

3 Topics

The following scopes are of general topics.

3.1 Co'ism

To help catalog services, co'ism services, i.e. things we do with each others such as co'operation, co'sharing, co'mmunicating, co'working, co'living, etc. within **atlantis°** are being grouped in six prime groups called "Elementals".

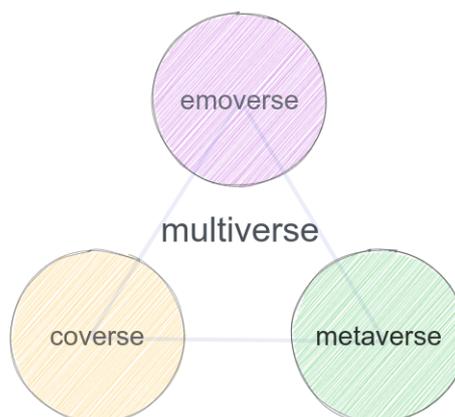

Where:

- co°Aware - for awareness
- co°Sein - for being
- co°Habita - for living together, habitation
- co°Culture
- co°Share - for brotherhood, communication, exchange
- co°Gestalt - for creating

3.2 Multiverse

We are living in multiple realities, "worlds" or "universes" such as the technology orientated "metaverse".

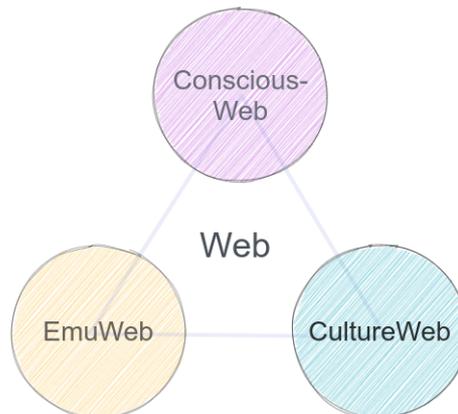

Where:

- emoverse - The emotional parallel universe to our existence where thoughts come into action, where emotional events are saved.
- coverse - Is our conscious universe - the human orientated physical universe into which we are born into.
- metaverse - the technological virtual or mixed reality world.

3.3 Web

Where "Web" is the weaving of a fabric of energy around the earth or Gaia.

Parts:

- ConsciousWeb - Being done via the setting up conscious hubs.i.e. beacons.
- EmuWeb - Interpersonal relationships i.e. via 1stFamily.
- CultureWeb - A collection of cultureware regioplexes.

3.4 Wesen

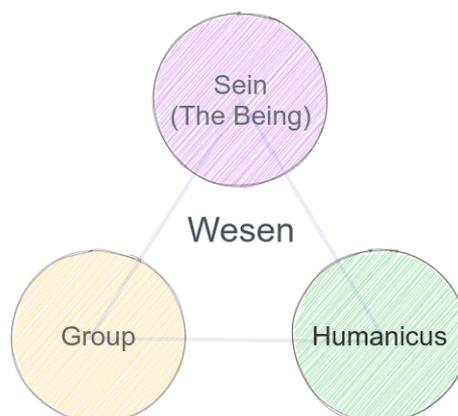

atlantis[®] revolves around three axialities:

- The SeinWesen - the being
- The GroupWesen - the group
- The HumanicusWesen - the species

Where:

-*wesen* is from the German for *being*, and
-*sein* for *be*.

They are symbols for something with which we are connected to and which are evolving.

If the SeinWesen is more in flove, then the GroupWesen is more in flove. And when the GroupWesen is in flove then the Humanicus.
